

10 Gigabit Direct Connection to 10 Gigabit Optical Module

Overview

A popular solution for short 10Gbps links is the 10G DAC cable (Direct Attach Cable). This is a twinax copper cable with SFP+ connectors on each end, plugging directly into 10 Gigabit Ethernet ports. The Cisco ® 10GBASE SFP+ modules (Figure 1) give you a wide variety of 10 Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport applications. Click to get your 10G SFP+ transceiver modules from nearby warehouses. These cables eliminate the need for separate optical transceivers and fiber patch cords, saving. Buy 10-Gigabit (10G) Ethernet Network Cables & Modules for your AI/datacenter network build-outs factory-direct from Amphenol, the industry leader in High-Speed interconnects.
