

100Mbps Single-Fiber Single-Mode Optical Module Specifications

Overview

Designed to operate on single-mode fiber (SMF), with a maximum distance of 20 km, optical budget of 14dB, SC connector, and a Tx/Rx wavelength of 1550/1310nm. Compliant with the SFF-8431 Multisource Agreement (MSA) recommendations. A single-mode optical module with an SFP form factor for Fast Ethernet, compliant with the 100Base-FX standard. While Gigabit and higher-speed optics dominate modern data centers, many control systems, surveillance networks, transportation infrastructure, and. The FS® 100BASE Small Form-Factor Pluggable (SFP) device (Figure 1) is a hot-swappable input/output device that plugs into Fast Ethernet ports, dual-rate Fast/Gigabit Ethernet ports, or Gigabit Ethernet ports of a FS switch or router, linking the port with the fiber cabling network. Main. The 100Mb SFPfbr xcvr sm 1310 is a 100Base-FX small form-factor pluggable (SFP) transceiver designed for single-mode fiber. It uses LC connectors, operates at a 1310nm wavelength, and supports long-distance data transmission up to 100 kilometers, ideal for extending 100Mbps Ethernet links over.
