

Aluminum Alloy Cable Tray Processing in Central and African Countries

Article Overview

Aluminum alloy cable tray processing in Africa is expanding, driven by infrastructure development, industrialization, and local fabrication capabilities, with notable hubs in North, East, and West Africa.

Regional Market Overview

The aluminum cable tray market in Africa is experiencing growth due to large-scale investments in power generation, telecommunications, and industrial infrastructure. North African countries like Egypt, Morocco, and Algeria have more mature industrial bases and integrated supply chains, supporting local production and high project activity in energy and urban development. In contrast, Sub-Saharan Africa, including South Africa, Nigeria, Kenya, and Uganda, is emerging as a high-growth frontier, with demand tied to new greenfield projects, renewable energy, and industrialization efforts .

Manufacturing and Processing Facilities

Several countries have established local fabrication plants for aluminum and alloy cable trays:

- Uganda hosts advanced processing plants such as Cable Corporation Ltd (CCL) in Lugazi, which produces cast iron, steel, ferrous, and non-ferrous alloy products conforming to international and national standards. These facilities serve industrial...
