

Andorra RF Optical Module Manufacturers

Article Overview

Ophir RF serves as a primary representative for RF optical modules in Andorra, while global manufacturers like Optical Zonu and RF-Lambda provide RF over fiber solutions that can be supplied to the region.

Local Representation in Andorra

Ophir RF maintains representatives and distributors in Andorra, offering high-power, solid-state, broadband, and band-specific RF amplifiers suitable for defense, communications, and EMC applications. While Ophir RF designs and manufactures its products in the USA, their regional presence ensures access to RF optical modules and related components for Andorran clients.

Global RF Optical Module Manufacturers

Several international companies provide RF over fiber (RToF) modules and optical components that can be shipped to Andorra:

- Optical Zonu Corporation (OZC): Based in Los Angeles, OZC specializes in full-duplex, single-fiber, single-wavelength transceivers and high-performance RF over fiber links. They serve commercial, carrier, and defense markets, offering NEBS Level 3 certified products and rapid customization.
- RF-Lambda: With facilities in the USA, Canada, and Germany, RF-Lambda produces RF broadband components, modules, and systems, including solid-state power amplifiers, low-noise amplifiers, RF switches, and phase shifters. Their products are widely used in wireless infrastructure, radar, aerospace, and defense applications
