

Australian Fiber Optic Trench Supply

Article Overview

Australia offers a range of fiber optic trenching services and suppliers, including CableNet Industries, Anderson Corporation, Fibre Optic Systems, and Optical Solutions Australia, providing both installation services and high-quality fiber optic products.

Fiber Optic Trenching and Installation Services

CableNet Industries specializes in comprehensive telecommunication installation services across Australia, including cable trenching, pit and pipe installation, directional drilling, cable ploughing, and fibre splicing. They also provide project management, cable testing, and commissioning services, making them a full-service partner for fiber optic infrastructure projects. Their expertise covers both urban and regional deployments, ensuring reliable installation and maintenance of fiber networks.

Fiber Optic Products and Supply

Anderson Corporation is a leading Australian supplier of fiber optic products, offering indoor/outdoor cables, pre-terminated cables, patch cables, SFP transceivers, media converters, and FTTx solutions. They provide tools such as fusion splicers, OTDRs, and PON power meters, supporting both installation and testing of fiber networks. Their RapidConnect system ensures future-proofing for evolving network technologies.
