

Benin Composite Optical Cable Price

Article Overview

The price of composite optical cables in Benin varies by type and specification, with indicative costs around 37.78 CFA francs per 10-year maintenance unit for certain indoor 2-fiber cables.

Market Overview

The Benin optical fiber cable market has experienced significant growth, with imports increasing at a compound annual growth rate (CAGR) of 71.14% between 2020 and 2024, despite a temporary year-on-year decline of 57.19% in 2023-2024. This reflects strong demand for optical infrastructure, driven by telecommunications expansion and digital connectivity initiatives.

Import and Export Data

In 2021, Benin imported optical fiber cables valued at \$13.9 million, representing 0.438% of total imports. Exports of optical fiber cables from Benin were minimal, totaling \$201,000, indicating that the country primarily relies on imports to meet domestic demand. These figures suggest that prices are influenced by international supply and shipping costs.

Indicative Cable Pricing

For specific products, such as indoor dielectric 2-fiber monomode G657 cables, the maintenance cost over 10 years is approximately 37.78 CFA francs per unit. These cables feature fire-resistant thermoplastic sheathing, aramid reinforcement, and co...
