

Cable Tray Cold Bending Equipment Quotation

Article Overview

Cable tray cold bending machines typically range from \$2,000 to over \$100,000 depending on automation, capacity, and origin.

Price Range Overview

- Low to mid-range machines: \$2,000–\$70,000, often manufactured in China, suitable for small to medium-scale production .
- Premium machines: \$100,000+, usually from European or American manufacturers, offering advanced automation, durability, and long-term operational efficiency .
- Automation and technology impact: Machines with IoT-enabled monitoring or energy-efficient servo systems may carry a 15–20% premium but provide long-term savings .

Technical Specifications Affecting Price

- Production speed: Cold bending machines can process 20m/min or more, depending on model .
- Material thickness: Typically 0.8mm–3mm for standard cable trays .
- Tray width: Machines can handle 100mm–1000mm, with custom widths available .
- Power requirements: Dual motors of 40KW are common for fully automated systems .
- Automation level: Fully automated systems require fewer operators (1–2), while manual machines are cheaper but labor-intensive
