

Cable tray and pipe fittings price calculation rules

Article Overview

The price of cable trays and pipe fittings is calculated by combining material costs, type and size, accessories, labor, and installation factors.

Cable Tray Pricing

- Material Selection: The type of material significantly affects cost. Common options include:
 - Steel: \$5-\$25 per meter, durable and cost-effective for general use .
 - Aluminum: \$6-\$30 per meter, lightweight and corrosion-resistant, ideal for outdoor or industrial environments .
 - Stainless Steel: \$20-\$100 per meter, highly durable and corrosion-resistant, suitable for harsh or hygienic environments .
 - FRP/Plastic: \$10-\$50 per meter, lightweight and corrosion-resistant, used in aggressive environments .
- Tray Type and Design:
 - Ladder trays: Open design, supports heavy cables, easier installation, slightly higher cost .
 - Perforated trays: Cheaper, suitable for lighter cables .
 - Wire mesh trays: Lightest and most affordable, ideal for data or small cables .
- Size and Load Capacity: Wider and deeper trays use more material and cost more. Heavy-duty trays designed for higher loads are more expensive .
- Accessories: Bends, reducers, tees, connectors, and covers add to the total cost....
