

Cable tray fabric and cable unit price

Article Overview

Cable tray prices vary widely depending on material, type, and supplier, ranging from \$0.80 per unit for basic trays to \$100 per meter for premium stainless steel trays.

Common Cable Tray Materials and Price Ranges

- **Steel (Galvanized or Electrogalvanized):** Widely used for general-purpose installations due to strength and affordability. Prices typically range from \$5 to \$25 per meter for standard steel trays, with B2B bulk units starting as low as \$0.80 per unit . Hot-dip galvanized steel offers better corrosion resistance and durability.
- **Aluminum:** Lightweight and corrosion-resistant, ideal for humid or chemically harsh environments. Prices range from \$6 to \$30 per meter . Aluminum trays are more expensive than steel but easier to handle and suitable for outdoor or coastal installations.
- **FRP (Fiber Reinforced Plastic):** Fireproof and highly resistant to aggressive environments. Prices range from \$10 to \$50 per meter depending on size and specifications . FRP is preferred in chemical plants, wastewater facilities, and offshore applications.
- **Stainless Steel (304 or 316):** Extremely durable and corrosion-resistant, suitable for heavy-duty industrial, pharmaceutical, or oil & gas sectors. Prices range from \$20 to \$100 per meter . Stainless steel is the most expensive but offers long-term reliability.
- **PVC:** Budget-friendly, impact-resistant, and fire-resistant. Prices are generally lower than metal trays, suitable for light-duty or indoor applications .
