

Calibration of Optical Communication Test Instruments in Costa Rica

Article Overview

Several accredited laboratories in Costa Rica provide calibration services for optical communication testers, ensuring compliance with international standards like ISO/IEC 17025.

Key Calibration Providers

1. CAMÉRICA S.A. CAMÉRICA specializes in metrology assurance and offers calibration services for a wide range of measurement equipment. They focus on quality, efficiency, and cost-effectiveness, and have been recognized for excellence in metrology services in Costa Rica . While their website highlights general calibration services, they provide consultation and support for specialized measurement systems, which may include optical communication testers. 2. Metcal Metcal is an ISO/IEC 17025-accredited laboratory providing high-precision calibration services across Latin America and the Caribbean . They offer calibration for instruments requiring exact measurements, including optical and electronic testing equipment. Their team is highly qualified, and they emphasize accurate, traceable measurements, making them suitable for optical communication tester calibration. 3. A Uno Calibration Laboratory A Uno Calibration Laboratory is accredited under ISO/IEC 17025:2017 and serves multiple industries, including electronics and telecommunications . They provide metrological services with certified standards and validated procedures, ensuring reliable calibration for devices such as optical communication testers. Their accreditation by Perry Johnson Laboratory Inc. and recognition by ILAC ensures international traceability. 4. Metrología Consultores S.A...
