

Cambodian electrical distribution box model

Overview

The GGD type AC low-voltage distribution panel is a technical development project issued by the former Ministry of Energy in 1992, with the premise of promoting the technological progress of China's low-voltage distribution industry and accelerating the upgrading of low-voltage. The GGD type AC low-voltage distribution panel is a technical development project issued by the former Ministry of Energy in 1992, with the premise of promoting the technological progress of China's low-voltage distribution industry and accelerating the upgrading of low-voltage. Aluminium Copper Distribution box - 120 mm² - 300 A max. Aluminium Copper Distribution box - 300 mm² - 540 A max. Input: 13Amp Plug, Alluminium Alloy. We are the leading manufacturer company for cabinet and metal enclosure for industrial automation, audio visual sector, networking, telecommunication, and power application. Our BP. □Bus Bars Design□- Our circuit breaker box come with bus bars, easy to wire neutral and ground, made from high quality copper to ensure a good conductivity, safe and reliable for your applications. The breaker box is also equipped with DIN rail, easy to install circuit breaker and other devices. Cambodia power strips and PDU power distribution units for surface mount, rack mount and general purpose applications. Coated with advanced powder coating technology, they offer a long-lasting finish and corrosion resistance. The products conform to ISO 9001:2008 standards, ensuring compliance with.
