

Case Study of Industrial Switches in Cambodia

Article Overview

Cambodian factories are increasingly adopting smart energy switching systems and renewable integration to enhance operational stability and reduce costs.

Smart Switching in Cambodian Manufacturing

A notable example is a Chinese-owned socket factory in Phnom Penh, which faced frequent production interruptions due to unstable grid voltage. The factory implemented an “Active Immunity” smart solar-storage system, combining a rooftop 3 MWp photovoltaic array, a 1305 kWh / 625 kW lithium iron phosphate battery storage system, and an intelligent hybrid energy manager. This system provides millisecond-level switching (
