

Common Fiber Optic Sensor Manufacturers in New Zealand

Article Overview

OplinX, atg, and Max. Quantifi Photonics are among the top fiber optic sensor and cabling solution providers in New Zealand.

Leading Manufacturers

OplinX New Zealand Limited specializes in high-quality fiber optic cabling and assemblies for data and telecommunications networks. They offer ITU-standard fibers (G.651, G.652d, G.657a/b), pre-terminated cables, fusion splicers, and test and measurement equipment. OplinX emphasizes personalized service, reliability, and strategic innovation, making them a strong choice for both commercial and industrial applications . atg Ltd is a New Zealand-based fiber specialist headquartered in Auckland. They provide end-to-end solutions for fiber network infrastructure, including FTTx access networks, data center connectivity, and passive and active components. atg focuses on practical, scalable solutions, offering installation tools, certified training, and ongoing technical support, which ensures long-term network performance . Max. Quantifi Photonics offers advanced photonics test and measurement solutions, including optical-to-electrical converters and high-bandwidth instruments for analyzing optical signals. Their products are suitable for high-speed optical signal testing and research applications, making them a valuable partner for precision measurement needs .
