

Commonly Used Distribution Box Labels

Article Overview

Distribution boxes commonly feature standardized labels that indicate handling instructions, safety precautions, and environmental information to ensure proper transport and storage.

Handling and Care Symbols

These symbols guide handlers on how to manage the package safely:

- This Side Up: Two vertical arrows indicate the correct upright position; the box should never be stored or shipped sideways or upside down .
- Fragile: A cracked wine glass or the word "Fragile" signals delicate contents like glass, electronics, or ceramics, requiring careful handling .
- Handle with Care: Two hands holding a box indicate that the item is easily damaged and should be handled gently .
- Keep Dry: An umbrella icon warns that the package must be protected from rain or damp conditions .
- Temperature Sensitive: A thermometer symbol shows that the product must be stored within a specific temperature range .
- Protect from Sunlight: A sun symbol with a line through it indicates sensitivity to UV or heat exposure .
- Do Not Use Hooks: A crossed-out hook symbol shows that hooks should not be used to lift the box .
- Team Lift or Mechanical Aid: Icons showing two people or a trolley indicate that the package is heavy or awkward and requires multiple people or equipment to lift .
- Stacking Limits: Horizontal bars with a number above indicate the maximum num...
