

Composite Communication Optical Cable Manufacturer

Article Overview

Leading manufacturers of composite optical cables include Norden Communication, APAR, OCC, CORNING, LAPP, and HELUKABEL, offering solutions for high-speed data, industrial, and telecommunication applications.

Key Manufacturers and Their Offerings

Norden Communication specializes in Fibre Optic Overhead Ground Wire (OPGW) and other composite cables that serve dual purposes as grounding conductors and fiber-optic transmission paths, suitable for power utilities and communication networks . They provide global supply and customized solutions for electrical and optical applications. APAR offers customized composite fiber optic cables for high-bandwidth applications, including data centers, ISPs, telcos, and railway networks. Their cables can be tailored for aerial, underground, micro duct, ribbon, indoor, and last-mile connectivity, with options for LSZH materials and fire-resistant versions for critical installations . Optical Cable Corporation (OCC) produces a wide range of fiber and hybrid composite cables for industrial, broadcast, enterprise, and data center applications. OCC is known for high-performance, ruggedized cables suitable for harsh environments, including military and mining operations, and provides solutions for both fiber optic and copper integration . Other notable industrial brands include CORNING, LAPP, Cavicel, HELUKABEL, and HELUCOM, which manufacture composite cables combining multiple conductors, optical fibers, and shielding for specialized industrial and communication applications
