

Estonia s largest optical cable factory

Article Overview

Hexatronic Tallinn is Estonia's largest fiber optic cable factory and the biggest fiber optic termination facility in the Baltic and Scandinavia.

Overview

Hexatronic's production site in Tallinn, Estonia, was established in 2002 and has grown to become the largest fiber optic termination house in the region . The facility spans 700 m² and operates two shifts to meet high customer demand, producing a wide range of fiber optic products for telecommunications, mobile networks, military, power, and other sectors .

Production and Capabilities

The Tallinn factory specializes in fiber optic terminations, assemblies, and high-quality cable products. It maintains rigorous quality control and holds ISO 9001, 14001, and 45001 certifications, ensuring compliance with international standards . Products manufactured here are shipped across Europe, serving key markets in Estonia, Latvia, Lithuania, and Scandinavia .

Additional Features

- The facility includes an on-site warehouse for efficient distribution.
- A shop for tools, accessories, and cable assemblies is available for quick field purchases .
- The production team is noted for its attention to detail, contributing to the high qu...
