

# Explosion-proof electrical distribution boxes are available in the UAE

## Article Overview

Electrical distribution boxes in hazardous areas of the UAE must comply with ATEX, IECEx, or UL certifications, be rated for the correct zone, gas group, and temperature class, and use appropriate protection methods such as flameproof (Ex d) or increased safety (Ex e).

### Key Standards and Certifications

Electrical distribution boxes in the UAE must adhere to internationally recognized standards to ensure safety in explosive atmospheres. The primary certifications include:

- ATEX (ATmosphères EXplosibles): European directive regulating equipment for explosive atmospheres, classifying zones from 0 to 2 based on the likelihood of explosive gases or dust .
- IECEx: International certification system for equipment in explosive atmospheres, ensuring global compliance and safety .
- UL: American standard for explosion-proof electrical equipment, often required for projects with US-based specifications .

### Zone Classification

UAE industrial sites typically follow IEC-style zoning:...
