

Export-oriented mesh cable tray production

Article Overview

Export-oriented mesh cable tray production is dominated by specialized manufacturers in Europe, China, and Turkey, leveraging high-capacity automated production lines and global distribution networks.

Leading Manufacturers and Production Capabilities

VALDINOX in Europe specializes in wire mesh cable trays with a production capacity exceeding 15 km of trays per day. Their systems, such as EASYCONNECT®, integrate innovative fixing mechanisms that reduce installation time and enhance durability, meeting international standards for safety and performance. The company emphasizes custom solutions and customer-oriented service, making it a key player in export markets. Shandong Tianhong Electric Power Technology Co., Ltd. in China offers a wide range of cable management systems, including mesh trays, perforated trays, and cable ladders. Their automated production lines ensure efficient manufacturing, stable quality, and fast delivery, supporting both OEM and ODM services for global clients. Tianhong's products are widely used in power plants, data centers, and commercial infrastructure, highlighting their versatility and export readiness. METAKSAN in Turkey exports approximately 80% of its production to over 60 countries, demonstrating a strong international presence. Their automated factory spans 24,000 m², producing cable protection systems, grounding equipment, and industrial sockets, with a focus on high-quality, customer-oriented solutions.
