

Fiber Optic Cable Cutter

Article Overview

Fiber optic cable cutters are specialized tools designed for precise, clean cuts on fiber optic cables, including Kevlar-reinforced and buffered fibers, essential for splicing and connector installation.

Types of Fiber Optic Cable Cutters

Precision Cleavers: These tools provide highly accurate cuts for splicing and connector preparation. They often feature automatic rebound mechanisms, adjustable fiber length settings, and durable materials like aluminum alloy and tungsten steel for long-lasting performance (Shopee) . **Kevlar Shears and Flush Cutters:** Designed to cut through tough fibers and Kevlar strands without crushing the cable, these cutters ensure clean, crush-free cuts for optimal signal transmission (trueCABLE) . **All-in-One Tool Kits:** Kits may include wire cutters, strippers, pliers, screwdrivers, and cleaning wipes. They allow cutting, stripping, and preparing fiber optic cables of various diameters and buffer coatings, making them suitable for field and lab work (McMaster-Carr) .

Key Features to Consider

- **Blade Material:** High-carbon stainless steel or tungsten steel for durability and precision.
- **Cutting Accuracy:** Adjustable settings for fiber length and angle to ensure clean cuts.
- **Ergonomics:** Non-slip handles and compact designs for comfortable operation.
- **Versatility:** Ability to handle different cable jackets, buffer coatings, and fiber dia...
