

Grenada Distribution Box Configuration

Article Overview

Grenada distribution boxes are designed for residential, commercial, and industrial use, featuring surface-mounted or cabinet-style enclosures with IP65 protection, modular layouts, and compliance with local electrical standards.

Types and Structure

- Surface-Mounted Modular Boxes
 - Typically feature 8-module configurations.
 - Constructed from flame-retardant, impact-resistant plastic.
 - Provide IP65 waterproof protection, suitable for outdoor or humid environments.
 - Designed for residential and light commercial applications with modular circuit arrangements for easy expansion or maintenance .
-
- XL-21 Low-Voltage Power Distribution Cabinets
 - Made of bent steel plates with welded angle steel, offering a compact and durable structure.
 - Suitable for industrial, mining, civil buildings, schools, and government institutions.
 - Supports single-phase and three-phase systems with voltages below 500V and load currents up to 630A.
 - Equipped with air circuit breakers, fuses, contactors, and thermal relays for circuit protection.
 - Front doors can include operation buttons, indicator lights, and display instruments, allowing easy access for maintenance .
