

# High-density cold aisle storage racks in Afghanistan

## Article Overview

High-density cold aisle storage solutions in Afghanistan are available through local providers like Etihad Zurmati and Snowland Cooling Systems, as well as international suppliers offering mobile and pallet rack systems for optimized cold storage.

### Local Cold Storage Providers

Etihad Zurmati is Afghanistan's first modern cold storage company, offering customized cold storage units ranging from 5 metric tons to large-scale facilities with a total capacity of 1,500 metric tons. Their solutions include cold storage racking systems, multi-purpose cold rooms, and containerized cold storage, designed to preserve fruits, vegetables, dairy, and meat while supporting export and logistics operations. They provide packaging, handling, and logistics support to maintain product quality and extend shelf life. Snowland Cooling Systems delivers modular and industrial cold storage facilities in Afghanistan, engineered to withstand extreme temperatures, dust, and inconsistent power supply. Their systems include walk-in chillers, freezers, and multi-temperature zones, suitable for agricultural produce, pharmaceuticals, and temperature-sensitive goods. Snowland emphasizes energy efficiency, climate-ready design, and end-to-end project execution including installation and after-sales support.
