

High-speed optical module manufacturers

Article Overview

Leading high-speed optical module manufacturers include Innolight, Eoptolink, Coherent Corp., ESTEL, TXOE, Hyper Photonix, Accelink, Lumentum, Sumitomo Electric, and Huawei, offering products from 100G to 1.6T for data centers, telecom, and AI infrastructure.

Key Manufacturers and Capabilities

Innolight (Zhongji Innolight Co., Ltd.) is a global leader in datacom optical modules, providing high-speed solutions such as 100G, 200G, 400G, and 800G, with first-mover advantages in coherent and 800G modules. Their clients include major cloud vendors like Meta, Google, and Amazon, and they serve both telecom and data center markets. Eoptolink Technology Inc., Ltd. specializes in high-speed optical modules, including point-to-point and PON modules. They offer over 2,800 product types, covering data broadband, Fttx, data centers, and smart grid applications. Eoptolink is expanding in silicon photonics and 800G modules, providing PAM4 and single-wavelength 100G solutions. Coherent Corp. (USA) provides optical components and transceivers for datacom and telecom, including 400G ZR/ZR+ coherent links and 800G/1.6T modules. They focus on integrated optics and silicon photonics to enhance transmission capacity and energy efficiency. ESTEL (Europe/USA) designs and manufactures high-performance optical transceivers for data centers, metro, and long-haul networks. Their modules include 100G, 400G, and 800G, with rigorous testing and local production ensuring quality and supply chain security. TXOE (Texas Optical Electronics LLC) produces 1.6T, 800G, and 400G optical transceivers for AI infrastructure and hyperscale data centers. They support InfiniBand and Ethernet platforms, with annual production capacity up to 9 million modules. Hyper Photonix...
