

Horizontal Optical Cable Junction Box OEM Manufacturer

Article Overview

Horizontal optical cable junction boxes, also known as in-line fiber optic splice closures, are available from OEM manufacturers like UnitekFiber and FiberCheap, offering high-strength, corrosion-resistant enclosures for fiber splicing and distribution.

Overview

Horizontal optical cable junction boxes are rectangular enclosures designed for horizontal installation in fiber optic networks. They provide protection, organization, and space for splicing optical fibers in underground, buried, or direct burial applications. These boxes are widely used in communication networks, CATV, and optical cable systems .

Key Features

- Material: Made from imported reinforced plastic for high strength and corrosion resistance .
- Capacity: Can accommodate up to 96 fibers in a single box, depending on the model .
- Functions: Supports butt-joint, branching, optical cable splitting, and wiring for main and drop cables of varying diameters .
- Protection: Designed to withstand harsh environmental conditions, ensuring low loss and high-performance connections
