

How much does a custom cable mesh tray cost

Article Overview

Custom-made cable mesh trays typically cost between \$20 to \$100 per meter, depending on material, size, and complexity.

Price Range and Material Considerations

The cost of a custom cable mesh tray varies significantly based on the material used. Stainless steel trays, which are highly durable and corrosion-resistant, are generally the most expensive option, while pre-galvanized steel is the most affordable for indoor applications. Aluminum trays are lightweight and corrosion-resistant, costing slightly more than steel, whereas hot-dip galvanized trays are suitable for outdoor or industrial environments and are moderately priced.

Customization Factors

Custom trays are priced based on dimensions, wire diameter, and design complexity. Standard widths range from 200 mm to 500 mm, heights from 50 mm to 200 mm, and lengths from 300 mm to 3000 mm. Wire diameters typically range from 3.5 mm to 6 mm. Custom bends, curves, tees, and slopes increase fabrication costs, as does the need for specialized finishes or coatings.

Installation and Total Cost

While the material cost per meter may seem low, the total project cost includes inst...
