

How much does a double-bridge fireproof cable tray cost

Article Overview

The price of a Double-Bridge Fireproof Cable Tray typically ranges from \$50 to \$200 per meter, depending on material, size, and fire-resistance rating.

Pricing Overview

Fireproof cable trays, including double-bridge designs, are generally made from stainless steel, galvanized steel, or fire-resistant composites and are coated with specialized fireproof materials to withstand high temperatures . Prices vary based on:

- Material: Stainless steel trays are more expensive than galvanized steel or aluminum .
- Fire rating: Trays with higher fire-resistance ratings (e.g., 2-hour WS5X rating at 1050°C) cost more .
- Dimensions: Width, length, and load capacity affect the price; standard lengths are often 2–3 meters .
- Customization: Custom spans, covers, or fittings increase cost .

Typical Price Examples

- Standard stainless steel fireproof tray: \$100–\$200 per meter .
- Galvanized steel or aluminum tray: \$50–\$120 per meter .
- Fully enclosed trough-type fireproof tray with cover: \$120–\$180 per meter, depending on corrosion resistance and shielding features
