

How much does a household electrical distribution box cost in Western Europe

Overview

Installing a new consumer unit costs on average between €450 and €800, depending on the number of groups you need. These costs include materials, labour, and 21% VAT. Replacing or expanding a new consumer unit ensures that your electrical installation is safe and future-proof, which is essential during renovations or if your current consumer unit. The total cost of installing a distribution board consists of several main elements. Materials usually account for 60-70% of the total cost, while labor accounts for the remaining 30-40%. When it's time to update your electrics, you'll need to know how much to budget for consumer unit replacement costs.
