

How to make a horizontal tee for cable trays yourself

Article Overview

You can fabricate a horizontal tee for cable trays by cutting, bending, and assembling straight tray sections with precise measurements and gussets or splices.

Tools and Materials Needed

- Straight cable tray sections (wire mesh or solid)
- Bolt cutter or metal saw for cutting
- Screwdriver or drill for fastening
- Gussets or splice plates for reinforcement
- Measuring tape, marker, and square
- Rubber caps for cut ends (optional for safety)

Step-by-Step Fabrication Process

1. Measure and Mark

- Determine the location where the tee will branch off.
 - Measure the width of the main tray and the branch tray.
 - Mark the cut lines for the branch opening on the main tray, ensuring alignment with the branch tray.
- #### 2. Cut the Main Tray
- Use a bolt cutter or metal saw to cut the side rails and bottom wires of the main tray where the branch will connect.
 - For wire mesh trays, remove side wires back to the first complete grid to maintain...
