

How to plug in an 8Mbps fiber optic router

Overview

Connect the fiber optic cable from your ISP to the ONT (Optical Network Terminal) provided. Power on all devices and configure your router for the internet connection. Compatible router: Verify that your router supports fiber optic input (look for an SFP or WAN port labeled). The process to connect fiber optic cable to router requires careful attention to detail, but I'll walk you through every critical step with the precision and clarity you deserve. Run an Ethernet cable from the ONT to the WAN port on your. Fiber Optic Modem: This device is essential for translating the optical signals from the fiber optic cable into usable internet data. Your internet service provider (ISP) usually supplies this.
