

Integrated Chassis Power Supply

Overview

Chassis mount power supplies are enclosed power conversion units designed to be mounted directly onto a chassis or enclosure, providing stable and regulated power within systems or equipment racks. DC input on request Operating Temperature -40. +70 °C Overvoltage Category OV2 Completely vacuum encapsulated. Most of IPD's products that are sold open frame can also be purchased with an optional chassis or chassis cover combination. The use of the chassis and chassis cover does provide some additional benefits to the power supply. View inventory, pricing and order now for same day shipping! Chassis Mount Power Supplies are in stock with same-day shipping at Mouser from industry leading manufacturers. Mouser is an authorized distributor for many chassis mount power supply manufacturers including Advanced Energy, Bel Power Solutions, Cosel, MEAN WELL, TDK-Lambda, TRACO Power, Vicor, XP. Discover the industry's best selection of AC/DC chassis power supplies, including enclosed, U-chassis, and L-chassis models, designed for industrial, medical, and commercial applications. With expert technical support, a seamless ordering process, and reliable service, TRC Electronics makes it easy. With output power ratings available between 25-400W, IPD offers a wide range of AC-DC power supplies for medical, industrial and Audio Video applications IPD offers DC-DC power supplies in the 70-185W range operating at input voltages of 9-18 VDC, 18-36 VDC, or 36-72 VDC.
