

Is it safe to cover an outdoor distribution box

Article Overview

Yes, it is safe to cover an outdoor distribution box if you use a proper weatherproof cover and follow installation and sealing guidelines.

Importance of Covering

Covering an outdoor electrical or distribution box is essential to protect it from rain, snow, ice, sunlight, and temperature fluctuations, which can cause corrosion, short circuits, or electrical fires. A proper cover also prevents accidental contact with live wires, reducing the risk of electric shock .

Choosing the Right Cover

- **Weatherproof Rating:** Select a cover rated for outdoor use, suitable for either damp or wet locations. Wet locations require “in-use” or “bubble” covers that protect plugs even when cords are connected .
- **Material:** Durable, UV-resistant materials like polycarbonate or painted metal are recommended to withstand sunlight and physical wear .
- **Gasket and Seal:** Ensure the cover has a gasket to create a watertight seal between the box and the cover .

Installation and Sealing

- **Seal Openings:** Use weather-resistant silicone caulk or putty around the box peri...
