

Israeli Fiber Attenuators

Article Overview

Fiber optic attenuators in Israel are widely available from suppliers like Farnell, Mouser, IL Photonics, and DCT, offering standard and custom attenuation values with technical support.

Overview

Fiber optic attenuators are devices used to reduce the power level of optical signals in fiber networks, ensuring optimal performance and preventing receiver overload. In Israel, several suppliers provide a broad range of attenuators suitable for single-mode and multimode fibers, with standard attenuation values ranging from 1 dB to 20 dB .

Key Suppliers

- Farnell Israel stocks a large selection of fiber optic attenuators from top manufacturers such as L-com and Amphenol, offering fast delivery, datasheets, and technical support .
- Mouser Israel provides attenuators with detailed inventory, pricing, and datasheets for various fiber optic connector types .
- IL Photonics imports and sells a wide range of fiber optic products, including passive components like attenuators, and offers additional support for products not listed on their website .
- DCT / CTC Union specializes in fiber mode attenuators with standard values of 3, 5, 10, 15, and 20 dB, as well as custom attenuation solutions, supported by on-site and online technical assistance
