

Ivory Coast Manufacturers 10G Optoelectronic Hybrid Cable

Article Overview

Key manufacturers in Ivory Coast capable of supplying high-performance fiber optic and hybrid cables include Côte d'Ivoire Cables (CIC), Nexans Côte d'Ivoire, and SICABLE (Prysmian Group).

Côte d'Ivoire Cables (CIC)

CIC is a 100% subsidiary of Orange Côte d'Ivoire and specializes in fiber optic network infrastructure, backhaul, and backbone maintenance. They provide deployment, production, and modernization services for fixed networks, making them a potential partner for optoelectronic hybrid cable solutions in Ivory Coast. Their team is certified and equipped to meet high-quality service standards, which is critical for 10G network applications.

Nexans Côte d'Ivoire

Nexans offers a range of CODINORM-certified products, including cables suitable for high-speed data transmission. Their expertise in engineering and safety standards ensures that their cables can support 10G networking requirements. Nexans also provides project management support through their Nexans APP, which can help in planning and deploying hybrid cable systems across multiple cities in Ivory Coast.
