

Lc300 interface

Overview

The device can be connected to host systems or devices using the RS485 serial interface. LC300 can encode four inputs at 1080 50/ 60P as well as the program output. This gives it powerful recording and streaming capabilities, making it well suited for multi-camera production, interactive media, evidential archiving and enriched digital learning. Outputting multiple streams. This product and the following instructions are designed for installation by a qualified 12v installer, car audio installer or auto electrician. Interfaces and Navigation modules must not be installed in a location where they will be exposed to extreme temperatures including, but not limited to. SITRANS LC300 is an inverse frequency shift capacitance continuous level transmitter for liquids, solids or liquid interface applications. Contact us for sales and pricing information. Table detailing terminal assignments for analog inputs, outputs, binary inputs, and interfaces. Introduction to device. The Quantrol series is available in the three DIN formats 48 mm x 48 mm, 48 mm x 96 mm, and 96 mm x 96 mm.
