

Lebanon power distribution box installation plant

Article Overview

Lebanon's power distribution infrastructure is supported by specialized companies like Legrand Lebanon and Servaumatic, which manufacture, assemble, and install electrical distribution boxes for industrial, commercial, and residential projects.

Overview of Lebanon's Electricity Sector

Electricité du Liban (EDL) is the public utility responsible for generation, transmission, and distribution of electricity across Lebanon . Despite significant investments in power plants and infrastructure, the sector faces frequent outages, prompting reliance on private generators. EDL operates multiple power plants, including Litani, Bared, Safa, and Nahr Ibrahim plants . The sector is gradually incorporating renewable energy, such as solar PV systems, and exploring natural gas integration to improve reliability .

Power Distribution Equipment and Installation

Legrand Lebanon

Legrand provides market-leading power distribution solutions designed to ensure safety, continuity of service, and power quality . Their offerings include:

- Capacitor banks for reactive energy compensation
