

Libyan RF Optical Module Manufacturer

Article Overview

There are currently no widely recognized domestic Libyan manufacturers of RF optical modules; most suppliers are international companies that can serve the Libyan market.

International Suppliers Relevant to Libya

While Libya does not appear to have local production of RF-over-fiber (RToF) modules, several international companies provide active optical modules and RToF solutions that can be sourced for Libyan applications:

- Optical Zonu Corporation (USA): Offers a full portfolio of RF-over-fiber links, including GPS fiber transport, BTS-DAS fiber transport, and full-duplex single-fiber transceivers. They are a trusted supplier for telecom and defense applications, providing both standard and custom solutions .
- ViaLite Communications (UK): Specializes in long-distance RF-over-fiber links with wide dynamic range and low noise figures. Their products cover L-Band, S-Band, and C-Band frequencies, suitable for satellite communications and high-performance RF applications .
- YOFC (China): Manufactures modular RF optical delay line systems with pluggable RF optical transceiver modules, fiber-optic delay modules, and optional optical amplifiers. These systems are scalable and configurable for broadband microwave signal applications .
- European Suppliers Listed on Europages: Companies such as ORAFOL Fresnel Optics GmbH, GP-Fiber Optics GmbH, INSION, and Firecomms provide active optical modules, SFP transceivers, and fiber optic components. These suppliers are ISO-cer...
