

Locating the location of the electrical distribution box

Article Overview

The electrical distribution box, also known as a breaker box or electrical panel, is typically found in the basement, garage, utility room, or mounted outside near the electrical meter.

Common Locations

Most homes place the distribution box in accessible yet unobtrusive areas. Typical locations include:

- Basement: Often near where the main power line enters the home.
- Garage: Mounted on a wall, usually close to the entrance.
- Utility or laundry room: Positioned for easy access while remaining out of the way.
- Exterior wall: Sometimes installed outside near the electrical meter, especially in homes without basements or garages. In multi-unit buildings like condos or townhouses, the panel may be in shared hallways or utility closets.

Identifying Features

The distribution box is usually a rectangular metal box, roughly the size of a medicine cabinet, often gray in color. It contains:

- Main breaker: Controls power to the entire home.
- Circuit breakers or fuses: Protect individual circuits from overloads or short circuit...
