

Magnetic Lamp Integrated Power Supply Manufacturer

Article Overview

Leading manufacturers of magnetic lamp integrated power supplies include ILUXLITE, Shenzhen Czine Light Technology, Firellux, JEMA Energy, and Heinzinger, offering solutions for both lighting and high-precision magnet applications.

Lighting-Focused Magnetic Power Supplies

ILUXLITE offers magnetic power supplies such as the Painter LX-ST-150 (150W) and LX-ST-120 (120W), designed for 2-phase track systems. These units provide a stable 48V DC output with input voltages from 175V to 265V AC, compact dimensions for seamless integration, and CE certification for safety and quality assurance. Shenzhen Czine Light Technology specializes in magnetic track power supplies for hidden installation inside magnetic tracks, compatible with 48V LED strip systems. Their products feature ultra-thin designs (as low as 16mm), stable 48V output, and models ranging from 100W to 200W. They offer both high-efficiency and full-power options, with multiple safety protections and a 3-year manufacturer warranty. OEM/ODM customization is available for wattage, length, IP rating, and packaging. Firellux provides 48V magnetic SMPS (Switched-Mode Power Supply) units for magnetic track lighting, emphasizing efficiency and stable DC output suitable for various lighting applications.
