

Maldives Low-Voltage Distribution Box Inquiry and Quotation

Article Overview

Low-voltage distribution boxes in the Maldives can be sourced from local suppliers like Multitec Maldives and STELCO, with options for custom engineering, prefabricated substations, and factory distribution cabinets.

Supplier Options and Services

Multitec Maldives offers consultation, design, and installation of low-voltage distribution systems for residential, commercial, and industrial buildings. Their services include main switchboards, meter panel boards, motor control centers, automatic load transfer panels, and power factor correction capacitor banks. They perform thorough inspections, power load estimations, and use AutoCAD for in-house and computer-aided design, ensuring compliance with construction regulations and manufacturer standards. STELCO (State Electric Company Limited) periodically issues requests for quotations for mini distribution boxes. Their RFQs require detailed technical specifications, unit and total pricing, delivery timelines, payment terms (typically 100% upon delivery within 30 working days), and company registration details. Quotations must remain valid for at least 45 days and comply with all technical and regulatory requirements. Prefabricated Substations such as the ZBW type combine high-voltage switchgear, distribution transformers, low-voltage switchgear, metering devices, and power factor compensation in one or several boxes. These are suitable for urban high-rise buildings, residential communities, industrial sites, airports, and hotels. They offer short installation cycles, safe operation, and compact design, with transformer capacities ranging from 50 kVA to...
