

Manufacturer s access switch 1G

Overview

Designed for enterprise applications, the EPS and AS4600 series are high-performance Gigabit Ethernet access switches, featuring between 30 and 54 ports. Switching engineered for 1G AV over IP with rear-facing ports ensuring a clean integration in AV racks. Pre-configured for out of the box. The AC-MXNET-SW24 is one member of the trio of MXnet 1G network switches designed, engineered, and manufactured exclusively by AVPro Edge, one of the first manufacturers of AV-over-IP devices to produce network switches alongside their companion ecosystem products internally. With multiple options for different environments, MSS can be used with access control or. LANCOM fully managed access switches are the secure and powerful networking foundation in all industries and application scenarios. Solving complex challenges takes more than technology—it takes partnership. These full line-rate L2/L3 access switches provide.
