

Manufacturing Price of Fiberglass Cable Trays

Article Overview

The custom price of fiberglass cable trays varies widely depending on material, design, size, and manufacturer, typically ranging from \$50 to several hundred dollars per meter for specialized FRP trays.

Factors Affecting Custom Pricing

Material and Resin Type: Fiberglass cable trays are often made from polyester or vinylester resins, with vinylester offering higher corrosion resistance and slightly higher cost. FRP trays are non-conductive, lightweight, and corrosion-resistant, which can reduce long-term maintenance costs compared to steel or aluminum trays (MP Husky) . **Tray Design and Type:** Ladder trays, solid-bottom trays, trough trays, and wire mesh trays each have different manufacturing complexities. Ladder trays are robust for heavy-duty applications, solid-bottom trays provide full cable protection, and wire mesh trays are lightweight with excellent ventilation. Custom bends, tees, and risers increase the price due to additional fabrication requirements (Alibaba) . **Customization and Length:** Manufacturers like Hebei Longxin offer custom lengths up to 6 meters, special colors, and unique configurations. Custom molds and production lines for specific projects can increase the unit price, especially for large-span or high-load designs (Hebei Longxin) . **Volume and Supplier:** Bulk orders generally reduce the per-unit cost, while small or highly specialized orders may carry a premium. Global suppliers such as MP Husky, Miyafrp, Saudigrate, Eaton, Atkore, and Snake Tray provide varying pricing based on production scale and regional logistics (Global Info Research) . **Certifications and Standards:** Compliance with ASTM standards, flame r...
