

NEMA4X Fiber Optic Cable Laying in Cambodia

Article Overview

Fiber optic cable installation in Cambodia is supported by licensed operators and suppliers, with options for durable, industrial-grade cables suitable for NEMA4X environments.

Fiber Optic Infrastructure in Cambodia

Cambodia has a growing and robust fiber optic network, with over 11,000 km of domestic fiber connecting major cities and international points of presence in Hong Kong, Malaysia, and Singapore through operators like Telcotech . The country also benefits from submarine cable systems such as the Malaysia-Cambodia-Thailand (MCT) and Asia-Africa-Europe 1 (AAE-1), providing international connectivity . Terrestrial cross-border fiber links connect Cambodia with Thailand, Laos, and Vietnam, ensuring redundancy and network resilience .

Licensed Operators and Service Providers

Key licensed fiber optic network operators in Cambodia include:

- Telcotech: Offers nationwide underground fiber networks with high service availability (99.99%) and international connectivity .
- Angkor Data Infrastructure: Provides planning, implementation, leasing, and maintenance of fiber optic networks across Cambodia, including in-building and countrywide deployments
