

Nationwide delivery of photovoltaic cable trays

Article Overview

High-quality photovoltaic cable trays, including steel, aluminum, and corrosion-resistant systems, are available for nationwide delivery to support solar PV installations.

Suppliers and Delivery Options

Several suppliers provide cable trays suitable for PV systems with nationwide shipping:

- Service Wire offers a broad range of wire and cable solutions, including solar-specific cable trays, with one- to two-day delivery nationwide from multiple facilities. They provide precut lengths, compartmental reels, and preinstalled pulling heads for fast installation, making them ideal for residential, commercial, and utility-scale PV projects .
- RBT Solar provides universal and custom cable tray systems made from Magnelis™ steel, designed for outdoor PV installations with a minimum 10-year corrosion resistance. Universal structures are in stock for immediate delivery, while custom orders have a four-week production period .
- Øglænd System and Ekabel24 offer a wide range of cable trays in materials such as stainless steel, galvanized steel, aluminum, and fiberglass composites. These systems include ladders, trays, and accessories for flexible installation in both indoor and outdoor PV environments
