

Oman AI Server Manufacturing Plant

Overview

Oman is set to begin an advanced artificial intelligence (AI) semiconductor chip manufacturing project in Salalah Free Zone, Dhofar, following the signing of a memorandum of understanding (MoU) between the Ministry of Transport, Communications, and Information Technology (MTCIT). Oman is set to begin an advanced artificial intelligence (AI) semiconductor chip manufacturing project in Salalah Free Zone, Dhofar, following the signing of a memorandum of understanding (MoU) between the Ministry of Transport, Communications, and Information Technology (MTCIT). The Sultanate of Oman is undergoing a rapid technological evolution driven by Oman Vision 2040, which emphasizes economic diversification, digital transformation, and the creation of a robust knowledge-based society. This vision aims to position information. Oman's digital infrastructure landscape is evolving rapidly as the country accelerates its ambitions to become a regional technology and data hub. Strategic locations, smart monitoring, advanced fire protection and multilayer physical security. Datamount SAOC was established in 2018 with a core business focus on data.
