

Outdoor factory cable tray price

Article Overview

Outdoor factory cable trays typically range from \$20 to \$150 per meter, depending on material, design, and customization options.

Price Range and Materials

The cost of outdoor cable trays varies significantly based on material and manufacturing process. Common materials include galvanized steel, stainless steel, aluminum, and zinc-coated options. Premium coatings like Zinc-Aluminum-Magnesium (ZM) or advanced powder coatings can add 15–30% to the base price due to enhanced corrosion resistance, especially in coastal or harsh environments . Standard galvanized steel trays are generally at the lower end of the price spectrum, while stainless steel and specialized coated trays are more expensive .

Factors Affecting Price

- **Material Costs:** Steel, aluminum, and zinc prices directly influence manufacturing costs. Fluctuations in raw material markets can cause price changes .
- **Manufacturing Location:** China and Southeast Asia offer competitive base pricing, but labor, environmental compliance, and nearshoring trends can affect final costs .
- **Design and Load Capacity:** Ladder-type, perforated, or solid trays have different production costs. Heavier-duty trays for industrial loads are more expensive .
- **Customization and OEM Options:** Factory-direct or OEM trays tailored to specific dimensions or electrical standards may increase cost but provide better fit and compliance .
- **Environmental Compliance:** Trays meeting sustainability certifications or stricter environmental regulations may carry higher prices
