

Outdoor integrated power supply energy-saving type for vehicle-mounted fiber optic cables

Overview

AGM deep-cycle batteries provide reliable backup power with minimal maintenance requirements. Integrate solar panels for extended runtime and reduced grid dependency in remote locations. Power over Ethernet ports simplify installations by delivering power and data over single cables. With over 40 years of delivering power solutions for cable broadband networks, EnerSys® continues to bring power reliability for today's fiber optic broadband networks. Cable Operators around the globe are deploying more fiber than ever before to meet the goals of 10G and DOCSIS 4. The 2400ODU-8 can house up to 8x active fiber transmit (2408LT) or receive (2406LR) modules and an 8-channel. Outdoor Small Integrated DC Power Supply (Assembled Type) HJ048, independently developed by Huijue Group, achieves an IP65 protection grade suitable for powering various network access layer equipment. For 1-phase or 3-phase systems Reliable protection against water and dust Immediate diagnosis in the field Eco-friendly design Selective power distribution. By mounting systems on trucks and flat racks or prefitted in ISO Containers or tactical shelters, highly mobile, durable platforms can be quickly deployed.
