

Performance of Grenada OPLC Optical Cable

Overview

• The OM2/OM3 MM optical fiber supports a transmission range of 10Gb/s, up to 150 m • Meets SFP+ MSA and SFF-8432 standards • Serial ID is supported through EEPROM • Operating temperature 0 to +70°C • Supply voltage 3.48V

4. The Fiber Optic Cable market in Grenada is projected to grow at a negative growth rate of -1.82% by 2027, within the North. The 10G SFP+ AOC is a high data rate parallel active cable that uses highly reliable 850nm VCSEL technology to overcome the bandwidth limitations of traditional copper cables up to 150 m. The SFP+ active cable is equipped with an optical conversion device that complies with the SFF-8432, SFP+ Multi. How does 6Wresearch market report help businesses in making strategic decisions?

6Wresearch actively monitors the Grenada Active Optical Cables Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. 9% from 2020 to 2024 underscores. The optical fiber cables import shipments to Grenada in 2024 saw significant growth, with the top exporting countries being the USA, Panama, China, Dominica, and Jamaica. The Herfindahl-Hirschman Index (HHI) remained at a very high concentration level, indicating a concentrated market.
