

Poly Distribution Box Size Specifications Table

Article Overview

Polylok distribution boxes range from 4-hole to 10-hole models, made of durable polypropylene with lockable covers and optional risers for height adjustment.

Polylok Distribution Boxes Overview

Polylok distribution boxes, also known as inspection or sample chambers, are designed for residential and commercial wastewater systems. They are made from robust polypropylene, which is corrosion-resistant and long-lasting. All boxes come with seals, lockable pedestrian-rated covers, and can accommodate Polylok risers for added height .

Available Models and Hole Configurations

- 4-Hole Distribution Box: Standard small-scale applications.
- 5-Hole Distribution Box: Suitable for medium residential systems.
- 6-Hole Distribution Box: Common for larger residential or small commercial systems.
- 7-Hole Distribution Box: Available in standard (uncut) or precut options; supports 2", 3", or 4" (110mm) outlet holes.
- 8-Hole Distribution Box: For larger commercial or multi-residential systems.
- 10-Hole "Rhino" Box: Designed for high-capacity commercial applications .
