

# Price List for Armored Pigtail

## Article Overview

Armored fiber optic pigtails typically range from \$5 to \$20 per unit, depending on fiber type, connector, and length.

### Pricing Overview

The cost of an armored pigtail varies based on several factors:

- **Fiber Type:** Single-mode (9/125μm) pigtails are generally slightly more expensive than multimode (OM1, OM2, OM3, OM4) due to higher precision requirements .
- **Connector Type:** Common connectors include ST, LC, SC, and FC. ST connectors are widely used and may be slightly cheaper, while LC or APC connectors can increase the price .
- **Armoring and Jacket:** Armored pigtails have a protective metal or reinforced jacket, which adds durability and cost compared to standard pigtails .
- **Length:** Standard lengths range from 0.5 meters to 3 meters, with longer pigtails costing more.
- **Customization:** Suppliers like FS and FiberZON offer custom options for fiber type, connector, and buffer design, which can affect pricing .

### Typical Applications

Armored pigtails are used in FTTX, LAN, PON, and optical CATV networks. They provide stable transmission, low insertion loss, and high reliability, making them essential for connecting backbone cables to network equipment ....
