

Price of 4-core anti-electrostatic fiber optic cable

Article Overview

The price of 4-core fiber optic cables ranges from approximately \$0.40 to \$2.04 per meter, depending on type, construction, and environment.

Pricing Overview

- Indoor, basic 4-core cables: Around \$0.40 per meter for standard PVC-jacketed, tight-buffered cables suitable for LAN or FTTH installations (100-meter reels typically \$60-\$90) .
- Outdoor or armored variants: Prices increase to \$1.80-\$2.04 per meter due to ruggedized construction, UV/fire resistance, and suitability for direct burial or harsh environments .
- Single-mode vs. multimode: Single-mode OS2 cables, supporting long-distance transmission up to 100 km, generally cost more than multimode OM3/OM4 cables designed for shorter runs .
- Bulk purchases: Ordering over 1,000 meters often qualifies for tiered discounts, reducing per-meter costs .

Factors Affecting Price

- Fiber Type: Single-mode fibers (OS2) are more expensive than multimode fibers (OM3/OM4) due to longer transmission capabilities and lower attenuation .
- Cable Construction: Armored, LSZH (Low Smoke Zero Halogen), or direct burial cables cost more than standard indoor PVC-jacketed cables .
- Length and Customization: Custom lengths, color-coded jackets, or hybrid configu...
