

Price of Italian Uniform Fiber Bragg Grating

Overview

The unit price of fibre Bragg grating on this list is \$45/pc for 1310nm and \$50/pc for 1060 and 980 nm. Minimum order quantity is 10 pcs. Updated May 1 th, 2025 There is only one grating per serial number This inventory may vary from time to time, please contact us before. A fiber Bragg grating (FBG) is a microstructure typically inscribed in the core of a single-mode optical fiber, consisting of a periodic variation in the refractive index. These gratings are written on double-clad. The FBG Filter Embedded Connector is designed for fiber-to-the-home applications. We specialize in custom fabrication of fiber optical gratings (FBG) across wavelengths from 400 nm to 2000 nm, tailored to precise customer specifications. These include: A temperature sensor integrated into an optical fiber uses a Fiber Bragg Grating (FBG) to measure temperature variations. This variation in refractive index enables the FBG to function similarly to a wavelength-tuned mirror: it.
